

Student Flutter App

Student mobile application -

Students can start learning from their course with Academy mobile application anytime, anywhere. To get the best flexibility with Academy mobile app, your students have to follow the steps below:

Download

Your students can download the app from Google Playstore/App Store, or they can get the app download link from their admin site. It depends on how the site admin distributes the application file.

Installation

After downloading the APK file, your students have to install the application on their devices. Now, they have to provide the application permissions and install the application. After completing the installation process, your students have to open the application.

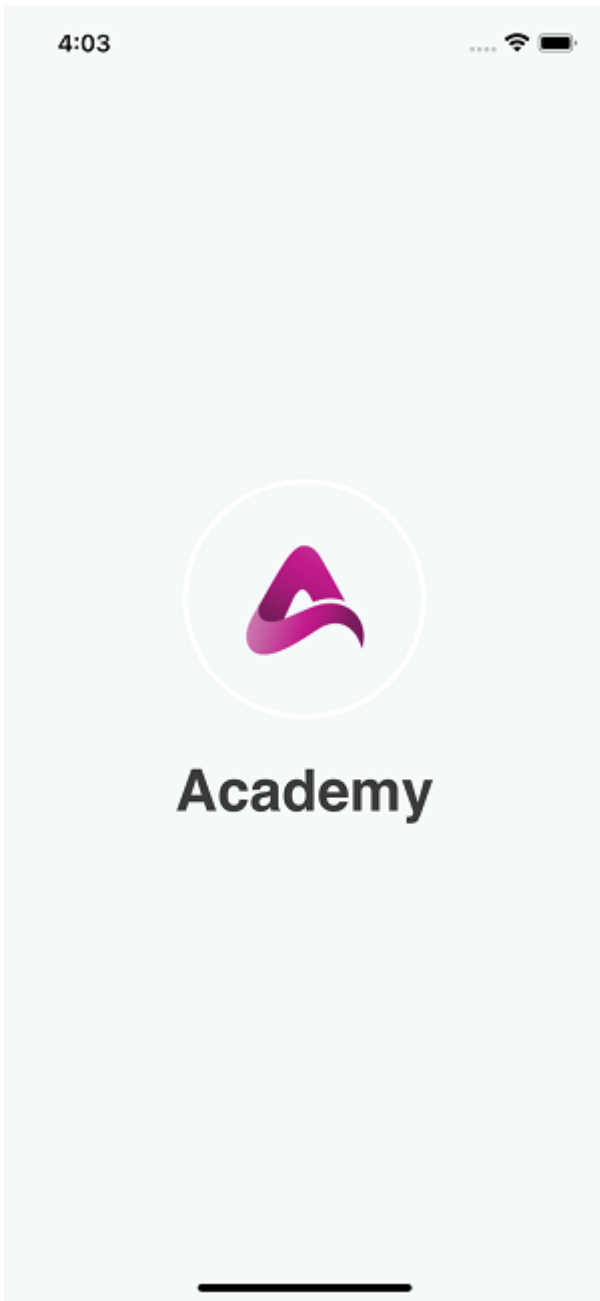

Figure 1. Academy student flutter app opening screen

Course browsing

After completing the log-in process, your students can explore the courses by browsing the application. They can overview the courses at a glance from the "**All courses**" option.

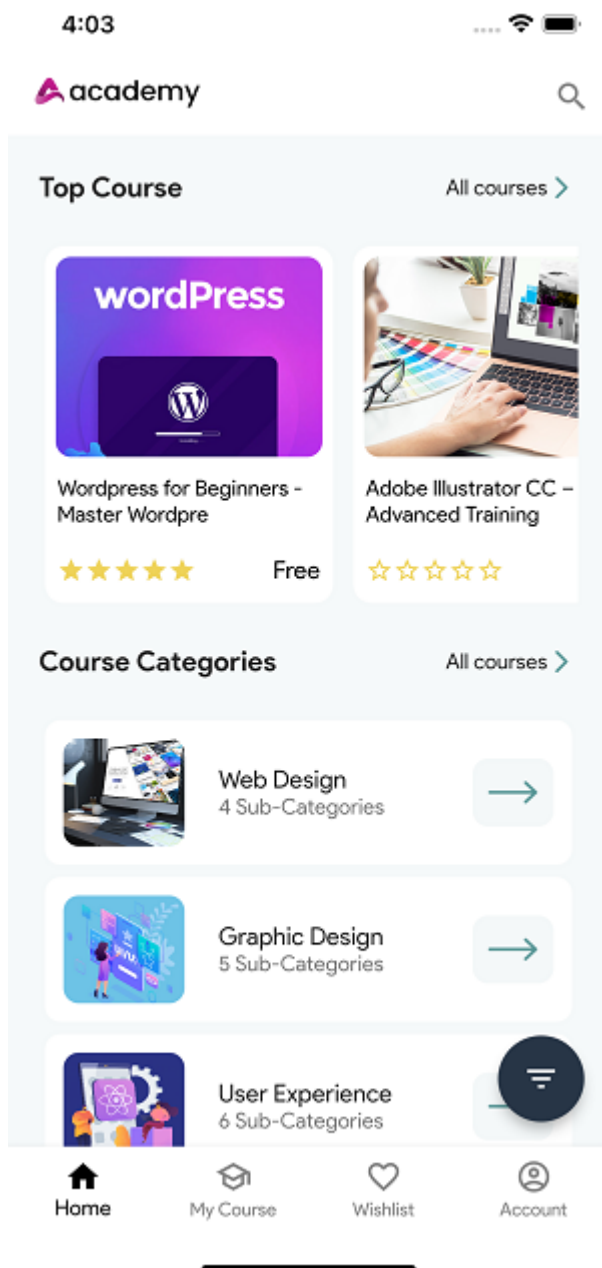

Figure 2. Academy student flutter app home screen

Your students can search for their desired course with an optimized filtering feature. Make your student's user experience more straightforward.

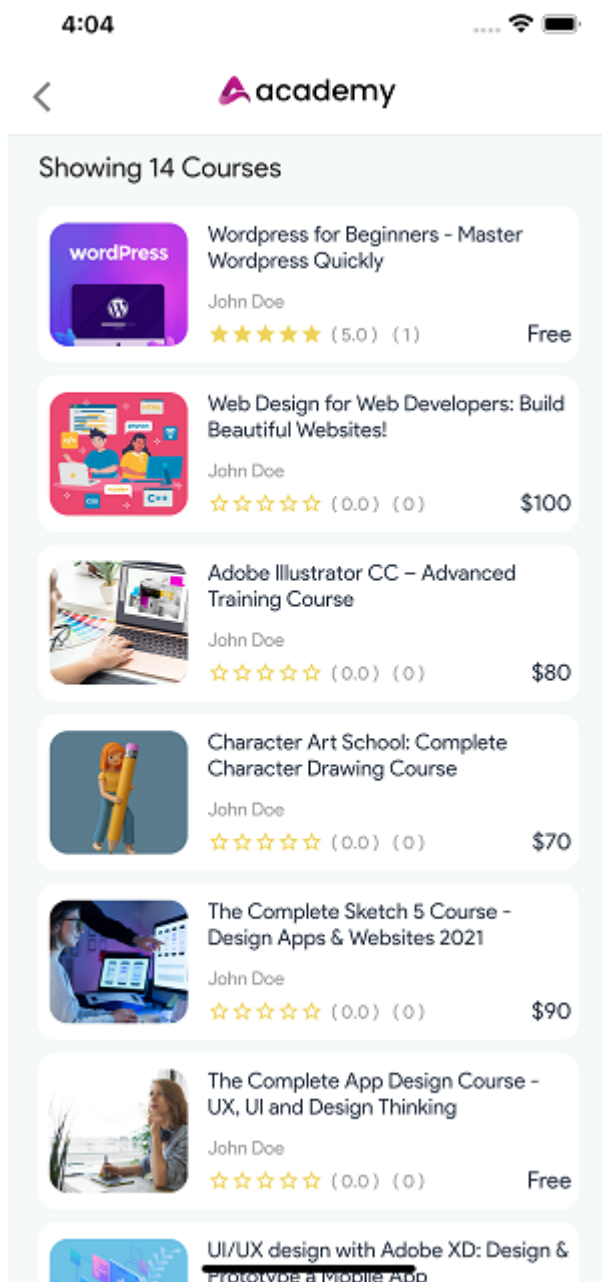

Figure 3. Academy student flutter app all course page

Students can also search from the floating Filter button on the homepage to find the best course for them.

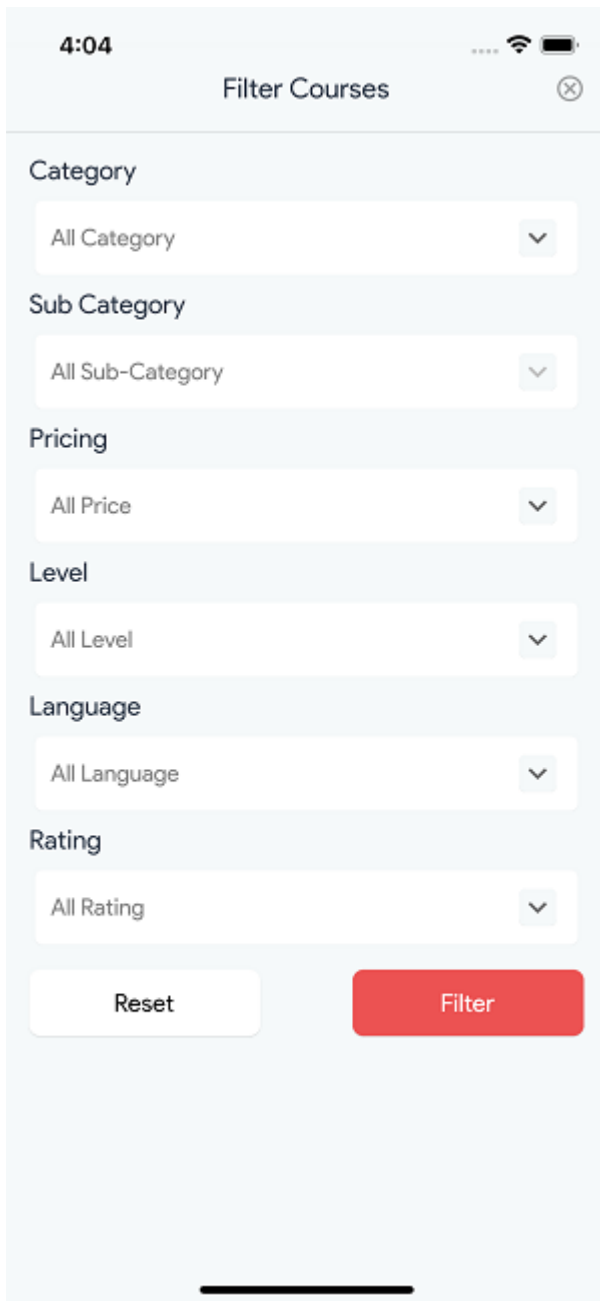

Figure 4. Academy student flutter app filter option

Course details

Clicking on a specific course will navigate your students to the "**Course Details**" view page. They can overview:

- Course title
- Number of students enrolled in that course
- Course rating
- Course price
- Course preview
- Course prerequisites

- Curriculum and so on.

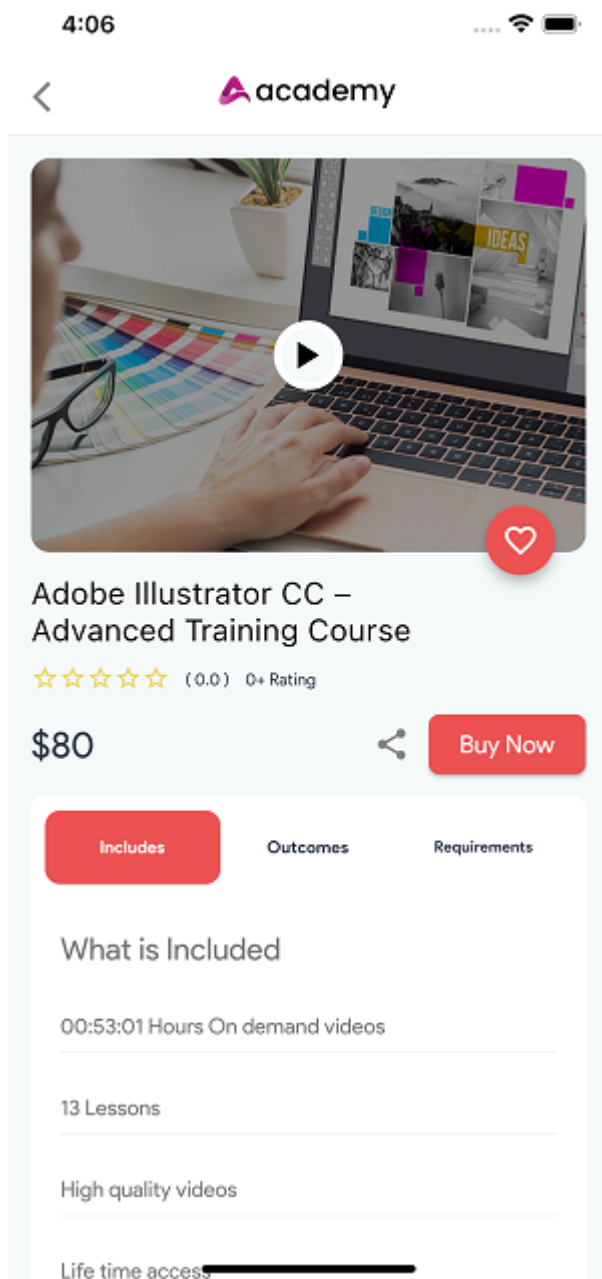

Figure 5. Academy student flutter app course details

Manage account with mobile app -

Your students can create and manage an account in the Academy mobile application. For this, they have to follow the steps below:

Create Account

Your student can create an account using their email address and password to create a valid account. They also have to verify the email to secure the account.

Purchasing course with mobile app -

Your students can purchase the best courses for them from the Academy mobile application. You can publish two kinds of courses. They are:

1. Free course
2. Paid course

Free Course

Students can watch free courses from the course details page by clicking on the "**Get Enroll.**" Students do not have to purchase these kinds of courses.

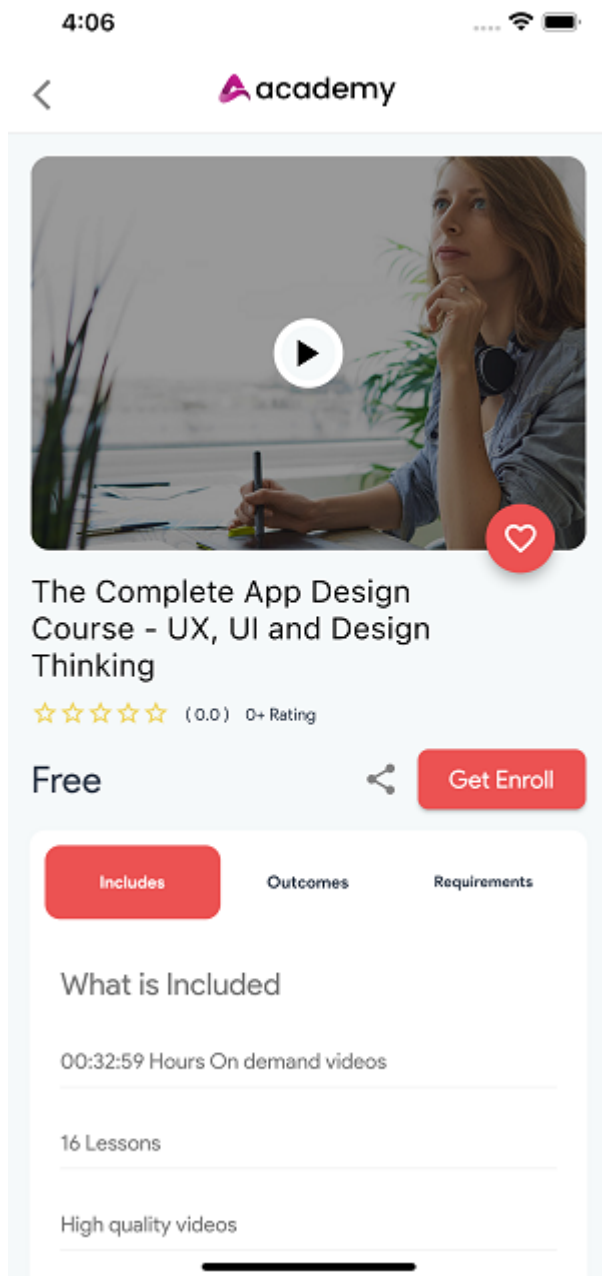

Figure 1. Academy mobile app free course

Paid Course

Students have to purchase these kinds of courses for learning. For this, they have to select the "**Buy now**" button. After that, they can choose a suitable gateway to complete the payment. Your students can watch their purchased course list from the "**My course**" page.

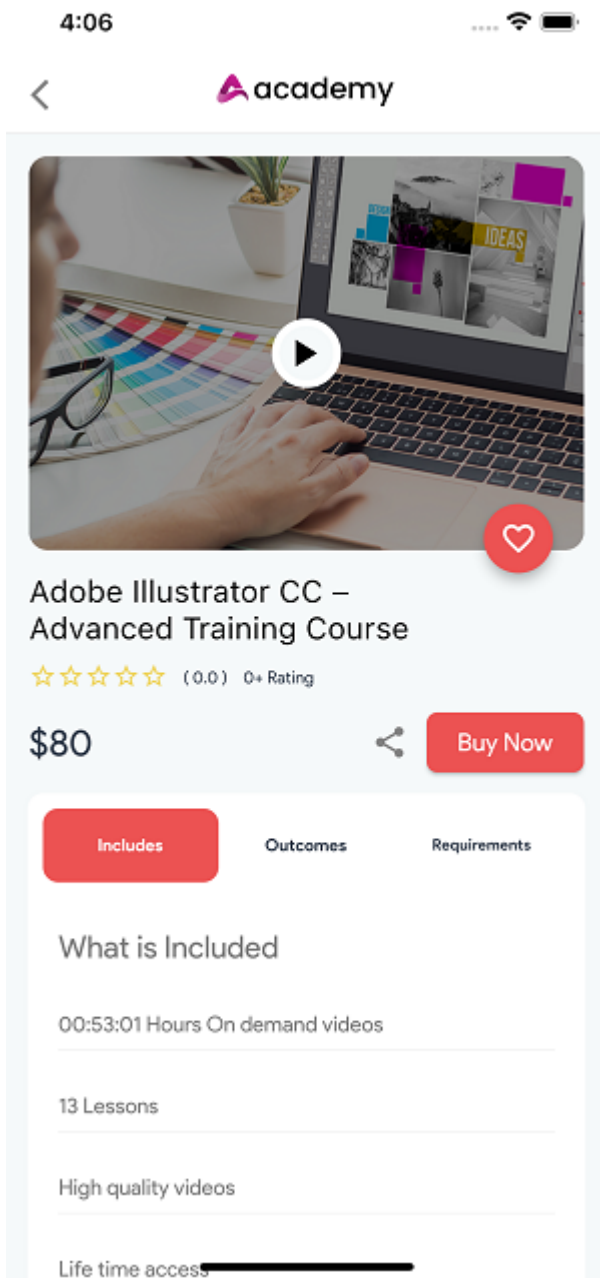

Figure 2. Academy mobile app paid course

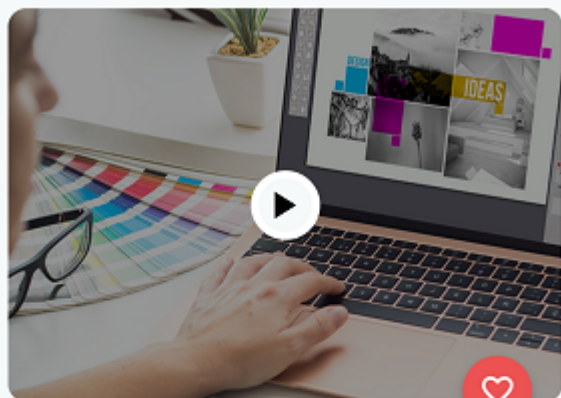

Managing wishlist in mobile app -

Your students can save the course to their wishlist by clicking the favorite icon. They can find their favorite courses on the "**Wishlist**" button. They can also remove a course from the wishlist by clicking on the "**Remove from wishlist**" button.

Course play with mobile app -

Your students can start or continue learning with Academy mobile application from anytime, anywhere.

Students have to navigate to the "**My course**" option to start learning from the course. They can monitor their course progress from this option.

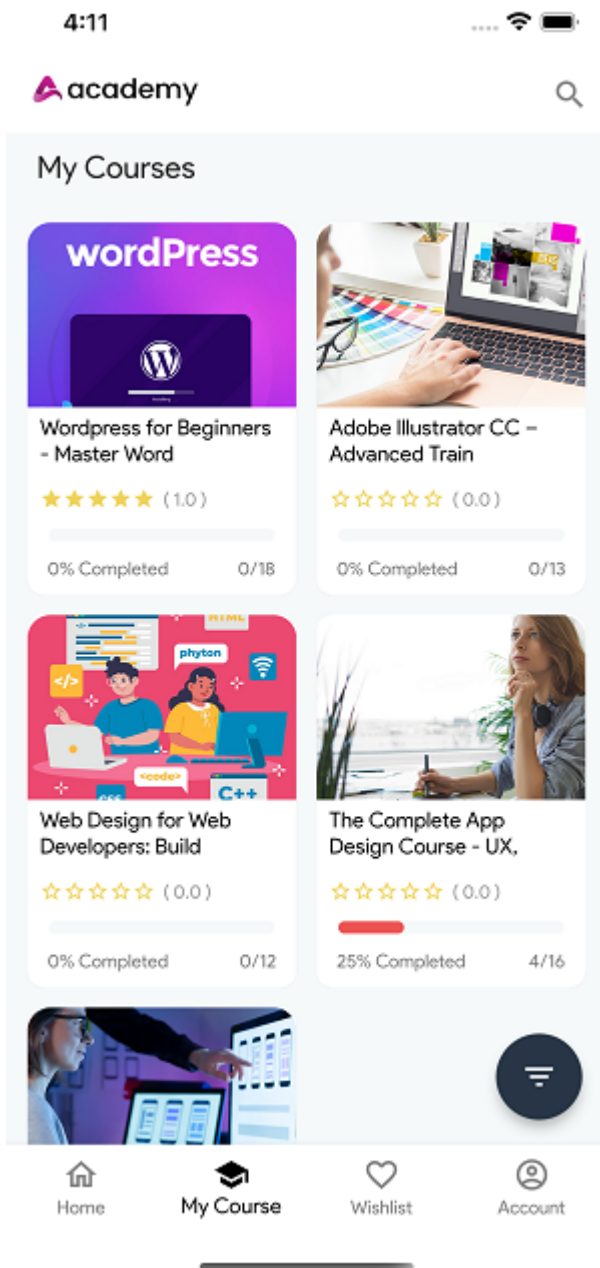

Figure 1. Academy mobile app My course page

Students have to click on a course to watch lessons, attachments, and quizzes. The live class will be visible if you install the live class addon.

Video type lesson

If your students click on the video type lessons, the video will play on the video player section. They can see the playing lesson title there.

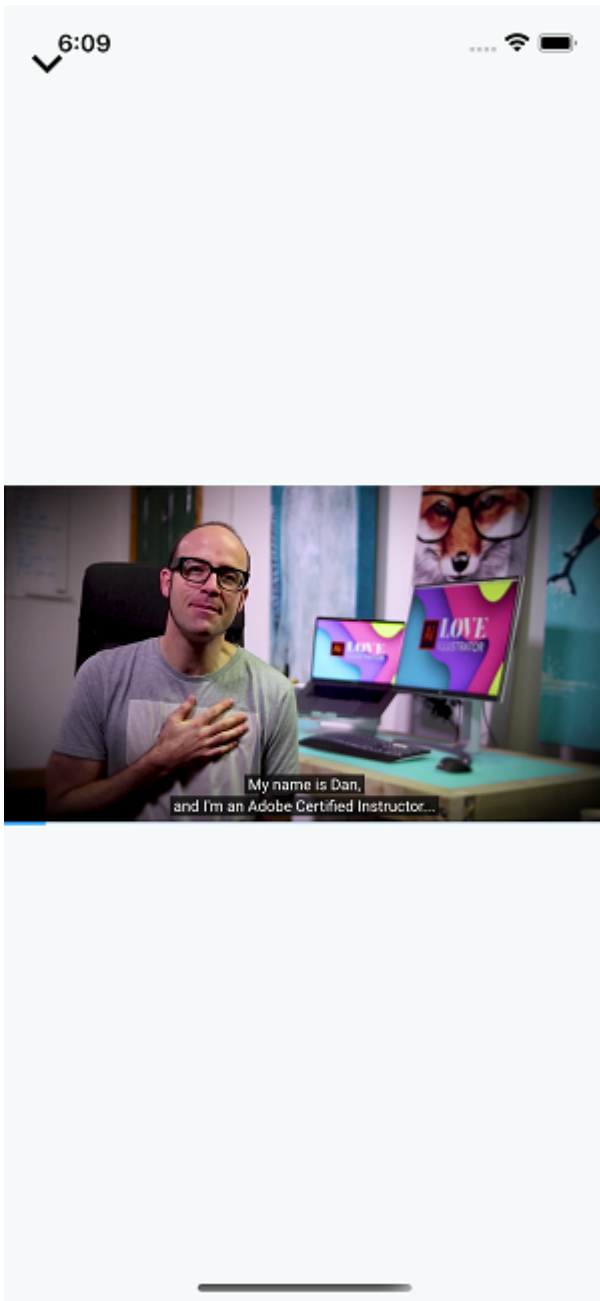

Figure 2. Academy mobile app video player page

Attachment type lesson

Your students can watch and learn from the attachments in a course. You can add as an attachment:

- Google drive video
- Document file
- Text
- Image file
- Iframe embed and so on.

Lorem Ipsum Dolor Emmet

What is Lorem Ipsum?

Lorem Ipsum is simply a dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Why do we use it?

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many websites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like).

Where does it come from?

Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cities of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of "de Finibus Bonorum et Malorum" (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of ethics, very popular during the Renaissance. The first line of Lorem Ipsum, "Lorem ipsum dolor sit amet...", comes from a line in section 1.10.32. The standard chunk of Lorem Ipsum used since the 1500s is reproduced below for those interested. Sections 1.10.32 and 1.10.33 from "de Finibus Bonorum et Malorum" by Cicero are also reproduced in their exact original form, accompanied by English versions from the 1914 translation by H. Rackham.

Where can I get some?

There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don't look even slightly believable. If you are going to use a passage of Lorem Ipsum, you need to be sure there isn't anything embarrassing hidden in the middle of text. All the Lorem Ipsum generators on the Internet tend to repeat predefined chunks as necessary, making this the first true generator on the Internet. It uses a dictionary of over 200 Latin words, combined with a handful of model sentence structures, to generate Lorem Ipsum which looks reasonable. The generated Lorem Ipsum is therefore always free from repetition, injected humour, or non-characteristic words etc.

Figure 3. Academy mobile app Course attachments

Quiz

To make the course more effective, your students can attend the quizzes from the Academy mobile application.

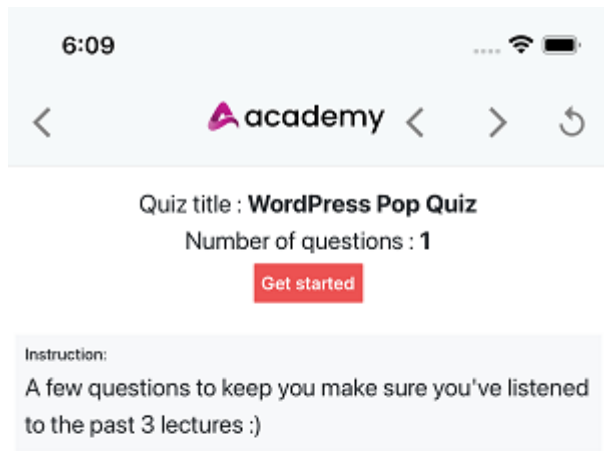

Figure 4. Academy mobile app Quiz

After completing each lesson, students can upgrade the course progress by clicking on the checkbox.

Offline course play for mobile app -

Your students can download their enrolled courses offline so that they can continue watching their courses without any internet connection.

What Type of videos can be downloaded?

Currently, your students can only download HTML5 video-type lessons in the Academy Student Flutter app.

How to download the course?

Students have to select the download icon from the "**My course details**" page. They can find their downloaded lessons under the course and related section.

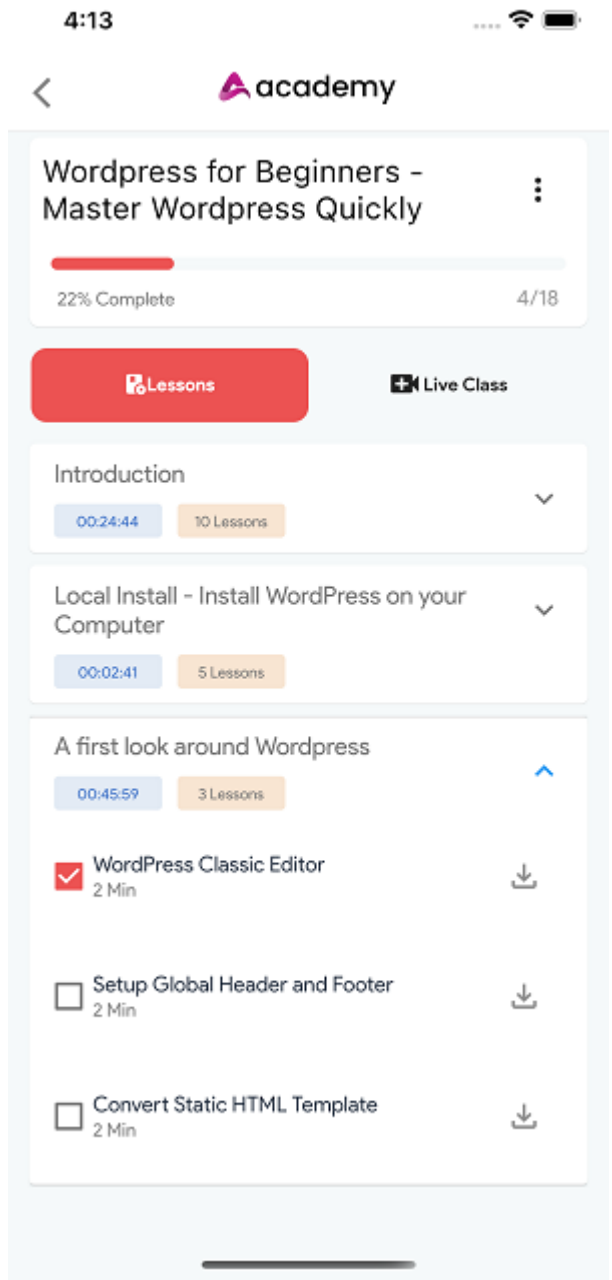

Figure 1. Academy mobile app Lesson playing page

How to check the downloaded file?

Your students have to navigate to the "**Account**" option to check the downloaded files. Here they can find the downloaded course section.

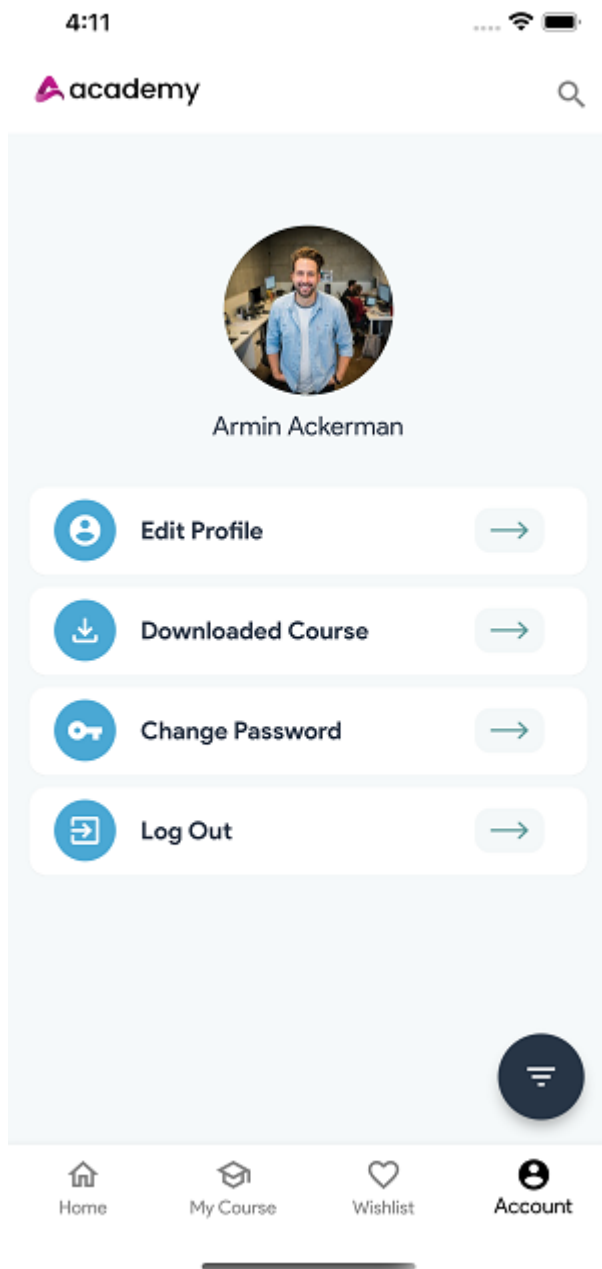

Figure 2. Academy mobile app Account screen page

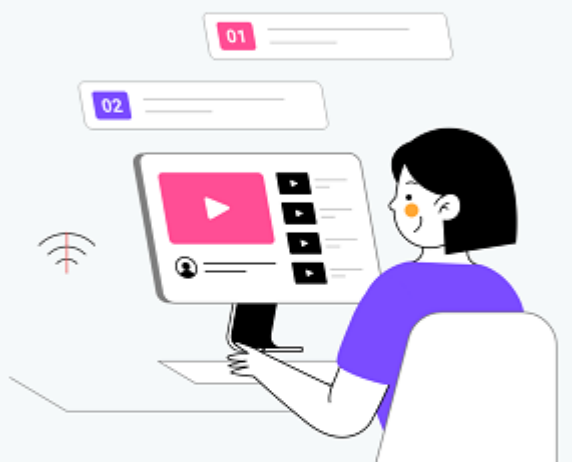

Use of Offline mode

As we said before, students can play the lessons offline if they download the videos. Your students can see the "**Play offline course**" button from the "**Account**" page. From here, students can choose the lessons that they want to play.
